

ALFA LAVAL COMPANY

GENERAL BACKGROUND INFORMATION

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling. Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena. Alfa Laval is listed on the Stockholm Exchange and, in 2004, posted annual sales of approximately SEK 15 billion (approximately 166 million Euros). The company has 9400 employees.

USA CORPORATE HEADQUARTERS: RICHMOND, VIRGINIA

MANUFACTURING CAPABILITIES

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce foods and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol. Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the

mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

FACILITIES IN USA

Alfa Laval is headquartered in Sweden, but employs 850 people at facilities throughout the United States, including Illinois, Indiana, Massachusetts, Pennsylvania, Texas, Virginia, and Wisconsin.

MEMBERSHIPS

The Philadelphia Swedish Trade Council
International Association of Food Industry Suppliers (IAFIS)
Water Environment Federation (WEF)
Management Association in the Process Equipment Field (PEMA)
Society of Automotive Engineers (SAE)
Society of Naval Architects and Marine Engineers (SNAME)
Navy League of the United States

WHY ALFA LAVAL JOINED THE ACIBC?

At Alfa Laval, we believe in supporting the carrier industry because of our commitment to a viable industrial base and strong national security. Alfa Laval joined the ACIBC to show this commitment to the US government and its operations. We are dedicated to providing cost-efficient, environmentally sound separation, heat transfer, and fluid handling solutions.
