

MARLO COIL
6060 Highway PP
High Ridge, MO 63049

COMPANY PROFILE

Marlo Coil (Marlo) has been the leading manufacturer of custom engineered coils, refrigeration and air handling systems for HVAC related applications since 1925 supplying quality equipment to the U. S. Navy shipbuilding industry as well as the industrial, commercial and marine markets.

Marlo focuses its production capabilities into the categories of Military, Navy & Marine as well as the Industrial & Commercial Markets.

Today, Marlo is still providing the same high quality custom engineered equipment for the Navy and Marine applications while also servicing additional markets such as pharmaceuticals, clean rooms, hospitals and other applications that require quality levels above what is available with commercial grade equipment.

Marlo was acquired by Engineered Support Systems, Inc., (ESSI) in 1998 as Engineered Coil, dba Marlo Coil (Marlo) and is now part of holding company with 14 operating subsidiaries. ESSI is a leader in sustainment equipment and supports all branches of the military with various engineered products and services. (NASDAQ: EASI www.engineeredsupport.com)

Our experience, commitment to quality, customer service and product flexibility have kept Marlo leading the industry throughout the past eight decades.

Marlo employs approximately 200 people on one campus, which is located 30 miles southwest of St. Louis Missouri in our 210,000 sq. ft. facility composed of two production plants, administrative offices and warehousing.

As part of our commitment to provide quality products, Marlo has successfully pursued and obtained ISO-9001:2000 certification and is now recognized by the NQA as an ISO

9001 Registered Company. Marlo's successful history is the result of our commitment to design and build products for customers who demand quality.

COMMUNITY PROGRAMS

As a company, we sponsor several community outreach programs, and we support our employees through their personal charities including but not limited to:

Feed My People (Local food, clothing, utility, and training assistance charity)

Friends of Kids with Cancer

MS 150 Bike-A-Thon

St. Patrick's Center

Jefferson County Regional Growth (Chamber of Commerce)

WHY MARLO COIL JOINED THE ACIBC

Marlo was very happy to become involved with the Aircraft Carrier Industrial Base Coalition. Aircraft carriers serve as the hub of our naval defense system. The aircraft carrier continues to perform a key role in supporting our United States military personnel by serving as a Sea Base for our aircraft and delivering offensive firepower to anywhere in the world. Carriers are also deployed for humanitarian efforts, and were most recently used to supply relief assistance to the victims of the Tsunami.

As our country depends on a strong defense to counter terrorists' activities and maintain a peacekeeping presence worldwide, a strong naval defense is mandatory. The success of aircraft carrier programs is also vital to keeping alive the highly skilled industrial base that supports these programs. America cannot afford to take either a strong Naval defense or a vibrant industrial base for granted. The ACIBC's efforts to bring this to the attention of our Members of Congress are necessary and very important.
