## Robertshaw Industrial Products

### GENERAL BACKGROUND INFORMATION

Established in 1904, Robertshaw offers unique combinations of quality products and advanced technological devices designed to provide solutions for customer needs. Robertshaw manufactures a broad line of industrial process controls which include Capacitance Level Instrumentation, Vibration Switches and Monitors, Self-Actuated Temperature & Pressure Regulating Valves, Control Valves, Pneumatic Control Equipment, and Centeron® Wireless Tank Monitoring Systems and Data Center. Our products are defined by a reputation of long-lasting reliability. They always improve the processes of which they are a part.

Robertshaw Industrial Products is an Invensys company. Headquartered in London, England, Invensys has over 80,000 employees. Invensys is a global electronics and engineering company that designs solutions to meet the total automation management and control requirements of customers.

### MANUFACTURING CAPABILITIES

To ensure customer satisfaction, we follow a Six Sigma process when manufacturing all of our products. Our quality process is enhanced by our new state of the art facility. The 55,700-sq. ft.

plant incorporates cell-manufacturing practices instead of outdated batch manufacturing methods. These manufacturing practices guarantee quality and quick response to customer needs.

### **FACILITIES IN USA**

Robertshaw's facility, located in Maryville, TN, employs 50 people.

### **COMMUNITY PROGRAMS**

Currently, Robertshaw is supporting Katrina relief efforts for the Gulf Coast. As of September 2005, Robertshaw has donated \$11,000.

### **WHY ROBERTSHAW JOINED THE ACIBC**

As a member of the industrial base, Robertshaw has supported military efforts and operations since World War II. We believe strongly in supporting the construction and maintenance of aircraft carriers and submarines, as they are an important part of our business.

In fact, Robertshaw provides a critical component for the construction of military ships. Robertshaw is the only QPL listed manufacturer in the United States for mil-spec temperature regulators used for shipboard heating and ventilation. Also, we supply various other valves, regulators, and switches, including Level 1 Sub-safe valves, to the U.S. Navy and Coast Guard.
