York, Pennsylvania 17405

York International Company Profile

York International began in York PA in 1874 and over the years has evolved into the largest independent designer and manufacturer of Heating, Ventilation, Air Conditioning and Refrigeration (HVAC/R) products and services in the world. York International currently has over 22,000 employees worldwide with product and services sales in over 125 countries and manufacturing facilities in 13 different countries. York maintains its corporate headquarters in York PA where it has grown to be a Fortune 500 company.

York Navy Systems Profile

York Navy Systems is the Marketing, Design and Manufacturing segment of York International Corporation that is focused on HVAC/R products and services for the US Navy shipboard use. In addition, York Navy Systems provides products and services to the other major Navies of world.

York Navy Systems began supplying equipment for shipboard use over 90 years ago and in that time has satisfied the uncompromising demands of the world's

navies for quality control and reliability throughout our broad range of engineered components and systems. Our Naval equipment is designed and tested to meet the stringent requirements for survivability, efficiency and low noise signature demanded by modern warship technology.

York has equipment installed on virtually every US Navy Ship currently in service. York further provides full factory support for the Fleet in any port in any nation globally. The Global structure of York provides the security of knowing that regardless of location York is there with York employees to make sure that all is right with its critical equipment. York Navy Systems management and production are headquartered in York, PA. York is naturally fully qualified to ISO 9001 with a fully qualified production staff for the manufacture of critical US Navy equipment.

Community Relations

As a company with over 130 years of presence in the York PA community, York International is a leader in numerous organizations and community initiatives in York. The employees of York are encouraged to participate in serving the communities where they live in a manner that suits their desires. Naturally the York International family throughout the world displays this attitude of giving back to the community.

Why York Navy Systems joined the ACIBC

York as a Global Corporation appreciates the slogan that NG NN often uses concerning an Aircraft Carrier; "4-1/2 Acres of Sovereign US Territory Where It's Needed, When It's Needed." Conditions in the world today clearly demonstrate the value of the Aircraft Carrier as both a political and defensive resource for the US and the world. As a US company with a Global reach York feels it is important that legislators and other suppliers also understand the importance of this symbol of US resolve. An organized, unified effort through the ACIBC is essential to demonstrating this need.
