

TAKE ACTION

As a constituent and a representative of the Aircraft Carrier Industrial Base Coalition, I respectfully request that you:

★ **Support a Two-Ship Procurement for *Enterprise* (CVN 80) and CVN 81**

Authorization of a two-ship procurement on a four-year construction interval will save more than \$2 billion over the construction of these ships, which currently are individually contracted on a five-year construction interval. If two-ship CVN procurement continued for subsequent ships as well, it would enable the Department of the Navy to reach and maintain a fleet of 12 aircraft carriers.

★ **Support the Aircraft Carrier Design for Affordability (DFA) Initiative and Integrated Digital Shipbuilding (iDS) Investment**

Support a \$77 million increase in funding for *Enterprise* (CVN 80) Total Ship Integration RDT&E (DFA), for a total investment of \$100 million. This investment will save more than \$700 million over the seven ships requested in the U.S. Navy's Thirty Year Shipbuilding Plan.

★ **Support the President's Budget Request for \$450 million Advance Procurement Funding for the Refueling and Complex Overhaul (RCOH) of USS *John C. Stennis* (CVN 74)**

Support the cost effective execution of the remaining *Nimitz*-class refueling and complex overhauls, which occur at the mid-life of a ship's 50-year service life, with continued steady, predictable funding.
